

Digital Story telling

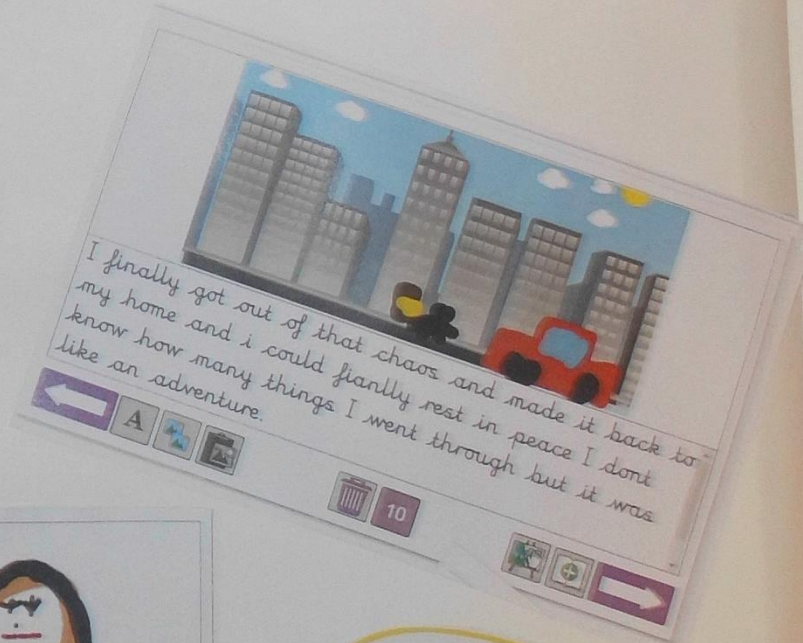

The children's first week they will be learning about stories, what characters to use, where the story is set and what the story is all about. They will log onto purple mash and go onto 2 create a story program. Then they will design their front cover to their story. They will then start produce their story. The story will have a beginning, a middle and an end. They will design all the artwork for their story and then read or perform their story in the last week.

I liked that you can make whatever want.

I did a story about animals racing through the jungle.

Sloty telling I engaged when me and Red drew the mchment.
