

Friday 9th September 2022

In this session children watch a short clip from the Commonwealth opening Ceremony. We discussed what enhances the dances and the movement. Children identified the props and the costumes. We discussed what are props and if we have ever used them. We then thought about if everyone was to wear the same colour, and no props and no costumes if they thought it would be as good. They decided that it would be better with colours and props

Children then used props one at a time to move along freely to music. We then discussed how using props made us feel and which was our favourite

Next children designed their own superhero mask and badge to wear as they moved to the superhero song. This help the children to get into character.
